

FOR THE PRINCIPAL — PLAIN-LANGUAGE SUMMARY

Are we moving in the *right direction*?

The five-month trend for your school overall, what's behind each month, and which subjects and grades are driving the movement.

Between November and March, your school's overall standing climbed from **"Improving"** to **"On Track"** — solid and reliable, with just a little more room to close the gap completely. By subject, **English is leading the way**, while **Science has the most room to grow**. By grade, **Grades 11–12 are pulling the average up**, and **Grades 9–10 are the ones with the biggest opportunity ahead**.

Position Report — March 2026

Month by month

A plain-language read of where your school stood overall each month, plus the three grade bands behind that number.

November

IMPROVING

Making real progress — building toward something consistent.

Grade 6–8	● Improving · 55%
Grade 9–10	● Improving · 50%
Grade 11–12	● On Track · 70%

December

IMPROVING

Making real progress — building toward something consistent.

Grade 6–8	● Improving · 58%
Grade 9–10	● Improving · 52%
Grade 11–12	● On Track · 74%

January

IMPROVING

Making real progress — building toward something consistent.

Grade 6–8	● Improving · 60%
Grade 9–10	● Needs Support · 45%
Grade 11–12	● On Track · 78%

February

ON TRACK

Solid and reliable, with just a little more room to grow.

Grade 6–8	● On Track · 65%
Grade 9–10	● Needs Support · 42%
Grade 11–12	● On Track · 82%

March

ON TRACK

Solid and reliable, with just a little more room to grow.

Grade 6–8	● On Track · 68%
Grade 9–10	● Improving · 50%
Grade 11–12	● Excelling · 88%

Position Report — March 2026

Where the movement is coming from

The same trend, split two ways — by subject and by grade — so it's clear which groups are leading the way and which have the most room to grow.

Movement by subject

MOST EFFECTIVE

English

↑ Math

→ Social Studies

NEEDS ATTENTION

Science

Your school has gone from Improving to On Track since November — led by English, with Science holding the biggest opportunity to catch up.

Movement by grade

MOST EFFECTIVE

Grade 11–12

↑ Grade 6–8

NEEDS ATTENTION

Grade 9–10

Grade 11–12 is pulling the school average up. Grade 9–10 has real room to grow — worth a closer look to help them get there.

This report was built from the same data shown on the dashboard — the chart, the grade-band breakdown, and the subject/grade view all trace back to the same five months.
